

ICON High School Course Catalog

Dual Credit Courses

ICON offers several opportunities to participate in Dual Credit courses. Dual Credit courses allow students to earn both high school and college credit for the same course.

Biology 100 – Year-Long

This is an introductory course for non-science majors that provides a broad survey of biology by exploring the principles and processes that apply to living systems, including current biological issues. PRE/COREQ: BIOL 100L. (This CWI course meets Idaho State Board of Education GEM competency requirements for GEM 4 - Scientific Ways of Knowing.). (3 lecture hours, 0 lab hours, 3 credits) The previous is in conjunction with an introductory lab for non-science majors which fulfills the laboratory component of the GEM 4 Scientific Ways of Knowing requirement. Students will engage with the process of science by making observations, developing questions, using scientific apparatus to collect and analyze data, and communicate the results of scientific work. PRE/COREQ: BIOL 100. (This CWI course meets Idaho State Board of Education GEM competency requirements for GEM 4 - Scientific Ways of Knowing.). (0 lecture hours, 3 lab hours, 1 credits).

Environmental Science 100 – Year-Long

Environmental Science Dual Credit is a year-long, Dual-Credit course through CWI. This course will consider scientific principles and their influence on environmental problems in today's society. The role of humans and our impact on these issues will be emphasized. Past, present, and future trends will be evaluated along with the possible impacts of these trends on the local and global populace.
